PROJECTS

Helio Training Collaborative Project   **Nov 2018 – Apr 2019**
Larry H Miller Sports & Entertainment Group
Web Development Intern
Salt Lake City Stars – *React Native*
- Created a calendar system to show team scheduling information
- Implemented SVG component to display logos based on data from GraphQL API
- Coded app navigation to allow both swiping and touch navigating between screens
- Added branding and assisted with creating a consistent look between app and website

1280 The Zone – *HTML, CSS*
- Recognizing an opportunity to minimize the impact of a large set of image links, I created a slide-in menu and then passed the code to another team for implementation. This allowed for more focused content and quicker access to desired content for the end users.
- As original author of the code, I collaborated on the final deployment to the live site.
